23 UNITED STATES DISTRICT COURT  
24 DISTRICT OF NEVADA

20 Brown v. Kinross Gold U.S.A., Inc.	CV-S-02-0605-PMP-(RJJ)
21 22 This Document Relates To: All actions	PLAINTIFFS' RENEWED MOTION FOR CLASS CERTIFICATION

25  
26 Movants Robert A. Brown, Glenbrook Capital LP, Andrew D. Kaufman, George P.  
27 Drake, and CN&L Investment Corp., by and through their undersigned counsel, respectfully  
28

1 move this Court for the entry of an order pursuant to Federal Rule of Civil Procedure 23,  
2 certifying that this action may be maintained and proceed as a class action in accordance with  
3 Rules 23(a) and 23(b)(3). In support of this motion, plaintiffs rely upon their Memorandum of  
4 Law and further state as follows:  
5

6 1. For all counts of plaintiffs' Amended Class Action Complaint, the proposed class  
7 consists of:

8 All persons and entities who: (1) tendered shares of the \$3.75 Series B Convertible  
9 Preferred Stock of Kinam Gold Inc. ("Kinam") to Kinross Gold Corporation ("Kinross")  
10 pursuant to the February 20, 2002, cash tender offer (as amended February 22, 2002)  
11 made by Kinross; (2) continue to hold shares of the \$3.75 Series B Convertible Preferred  
12 Stock of Kinam; or (3) did not tender shares of the \$3.75 Series B Convertible Preferred  
13 Stock of Kinam to the February 20, 2002, cash tender offer (as amended February 22,  
14 2002) made by Kinross but have since sold such shares directly to Kinross, Kinam or  
15 Kinross Gold U.S.A. Inc. ("Kinross U.S.A.")<sup>1</sup>

16 2. Additionally, for all counts of plaintiffs' Amended Class Action Complaint, the  
17 proposed Class is comprised of three subclasses consisting of all non-excluded persons who:

18 (1) held shares of the Preferred which they tendered to the Offer (the "Tenderor"  
19 subclass); (2) continue to hold shares of the Preferred (the "Holder" subclass); or  
20 (3) sold shares of the Preferred to Kinross or any of its controlled entities after the  
21 closure of the Offer and the delisting of the Preferred (the "Late Tenderor"  
22 subclass).

23 3. The requirements of Fed. R. Civ. P. Rules 23(a) and 23(b)(3) are satisfied.

24 4. The plaintiff Class is so numerous that joinder of all members is impractical.

---

25 <sup>1</sup> Excluded from the Class are Kinross, Kinam and Kinross U.S.A. (collectively  
26 "Defendants"), their officers and directors (including Robert M. Buchan), affiliates, legal  
27 representatives, heirs, predecessors, successors and assigns, and any entity in which any  
28 Defendant has a controlling interest or of which any Defendant is a parent or subsidiary.

1           5.     There are numerous questions of law and fact common to all members of the  
2 Class.

3           6.     The claims of the named plaintiffs are typical of the claims of the members of the  
4 Class, and the named plaintiffs will fairly and adequately protect the interests of the members of  
5 the Class.  
6

7           7.     Plaintiffs' counsel are eminently qualified to represent the Class.

8           8.     Common questions of law and/or fact predominate over any such questions that  
9 may affect members of the Class individually.  
10

11          9.     A class action is superior to all other available methods for the fair and efficient  
12 adjudication of this case.

13           WHEREFORE, plaintiffs respectfully request this Court enter an order pursuant to Rules  
14 23(a) and 23(b)(3), certifying that this case may proceed as a class action, and that the named  
15 plaintiffs shall serve as representatives of the Class.  
16

1 **I. PROCEDURAL HISTORY**

2 Pending before this Court are two class action lawsuits for damages, equitable and  
3 declaratory relief by holders and certain former holders of the Preferred against Kinross Gold  
4 Corporation (“Kinross”), Kinross Gold U.S.A. Inc. (“Kinross USA”), Kinam Gold Inc. (“Kinam”)  
5 and Robert M. Buchan (“Buchan”), Chairman & Chief Executive Officer of Kinross, (collectively  
6 “Defendants”). By Order dated August 7, 2002, this Court appointed Movants to serve as Lead  
7 Plaintiffs, pursuant to § 21D(a)(3) of the Securities Exchange Act of 1934 (the “Exchange Act”) 15  
8 U.S.C. § 78u-4, and appointed Berger & Montague, P.C., and Reginald H. Howe, Esquire, as  
9 Plaintiffs’ Co-Lead Counsel and Kummer Kaempfer Bonner & Renshaw as Plaintiffs’ Liaison  
10 Counsel.<sup>1</sup> Both cases arise out of the same operative facts and allege that defendants breached the  
11 terms of the Preferred, breached their fiduciary duties arising out of their status as “control persons”  
12 and major shareholders, violated the “best price rule” promulgated under Section 13(e) of the  
13 Exchange Act, violated anti-fraud provisions of rules promulgated under Sections 13(e) and 14(c)  
14 of the Exchange Act, and violated the anti-racketeering law set forth in N.R.S. Section 207.  
15  
16  
17

18 The original complaint, filed on April 26, 2002, included counts for breach of contract (count  
19 I), breach of fiduciary duty (count II), violation of the “best price rule” under § 13(e) of the Securities  
20 Exchange Act of 1934 (the “Exchange Act”) (count III), violations of the anti-fraud provisions of  
21 §§ 10(b) and 13(e) of the Exchange Act (count IV), violation of Nevada's anti-racketeering law  
22 (Nevada Revised Statutes, §§ 207.350-207.520) (count V), and violation of § 20(a) of the Exchange  
23 Act (count VI). The defendants answered on June 11, 2002.  
24

25  
26  
27 <sup>1</sup> Also pending before the court is *Tsurekidis v. Kinross, Gold, U.S.A., Inc.*, U.S.D.C. Nev.,  
28 CV-S-02-0726-PMP-(LRL) (“Tsurekidis Action”). The Court’s August 7, 2002 Order also  
consolidated the pending actions. The defendants in the Brown Action and the Tsurekidis Action  
are identical: Kinross, Kinross USA, Kinam and Buchan.

1 On October 22, 2002, plaintiffs moved for class certification. On October 28, 2002,  
2 defendants moved for judgment on the pleadings on count IV under the Private Securities Litigation  
3 Reform Act ("PSLRA"). Pending a decision on defendants' motion for judgment on the pleadings,  
4 the Court dismissed plaintiffs' motion for class certification with leave and granted plaintiffs leave  
5 to renew. On September 29, 2003, the Court granted this motion with leave to amend. Plaintiffs  
6 filed an Amended Complaint on November 21, 2003.  
7

8 On March 1, 2004, defendants filed a second motion for judgment on the pleadings on the  
9 amended federal securities fraud claims contained in counts V (violation of §§ 10(b) and 13(e) of  
10 the Exchange Act and Rules 10b-5 and 13e-4(j)), VI (violation of Rules 10b-5(a) and (c) and 13e-  
11 4(j)(1)(I) and (iii)), and VII (violation of § 20(a) of the Exchange Act). By an Order entered on  
12 November 2, 2004, the Court dismissed these three counts with prejudice, leaving counts I through  
13 IV (corresponding to counts I, II, III, and count V of the original complaint) for trial.  
14

15 On January 6, 2005, defendants filed a "motion for judgment" on counts III (best price rule)  
16 and IV (Nevada RICO) of the amended complaint. That motion also sought correction of an error  
17 in the Court's Order of November 2. Plaintiffs responded with a cross-motion for summary  
18 judgment on count III.  
19

## 20 **II. STATEMENT OF FACTS**

21 In August 1994, Kinam, then Amax Gold, issued 1.84 million shares of Preferred for net  
22 proceeds of \$88.3 million. AC, ¶ 24. The issue was listed on the New York Stock Exchange. The  
23 Preferred ranked prior to the company's common stock "both as to payment of dividends and as to  
24 distribution of assets upon liquidation, dissolution, or winding up of the Corporation, whether  
25 voluntary or involuntary." AC, ¶ 27. Any amendment "to affect adversely the relative rights,  
26  
27

1 preferences, qualifications, limitations, or restrictions” of the Preferred required the separate  
2 affirmative vote or consent of at least two-thirds of the shares of Preferred then outstanding. *Id.*

3  
4 In addition an \$8.25 conversion price, equating to 6.061 common shares per Preferred share,  
5 the attributes of the Preferred included: a liquidation preference of \$50; a cumulative dividend of  
6 \$3.75 per year, payable quarterly on the 15<sup>th</sup> of February, May, August and November, as and if  
7 declared by the board of directors; and a call or redemption provision at a price ratably declining on  
8 an annual basis from \$52.625 on August 15, 1997, to \$50.00 on August 15, 2004, plus accrued and  
9 unpaid dividends. The Preferred carried 1.4 votes per share when voting together with the common,  
10 as called for on all matters except in certain instances when a separate class vote was mandated (*e.g.*,  
11 election of two additional directors whenever six dividend payments remained unpaid). AC, ¶ 26.

### 13 **1. The 1998 Merger**

14 Amax Gold and Kinross announced their intention to merge in February 1998, stating, among  
15 other things, that: “In the merger transaction, approximately US\$335 million of Amax Gold debt will  
16 be eliminated.” AC, ¶ 30. In the merger, each common share of Amax Gold was exchanged for  
17 0.8004 of a common share of Kinross, resulting in the former shareholders of Amax Gold acquiring  
18 an approximate 50% ownership interest in Kinross. AC, ¶ 38. However, the Preferred was not  
19 exchanged or retired. Rather, the conversion rate was adjusted *pari passu* with the exchange rate  
20 for the common, giving the Preferred a new conversion price of \$10.31 equating to 4.8512 shares  
21 of Kinross common. AC, ¶ 39. Neither this change nor any other aspect of the 1998 merger was  
22 submitted for approval by a separate class vote of Preferred. *Id.*

25 Rather than eliminate the Amax Gold debt as promised, Kinross advanced \$256 million to  
26 Kinam to pay off an equal amount of outstanding bank debt, and then left the advance on Kinam’s  
27

1 balance sheet as a non-interest bearing obligation with no fixed terms of repayment. AC, ¶ 42. Nor  
2 did Kinross retire debt of \$92 million owed by Amax to its former corporate parent, Cyprus Amax  
3 Minerals. Rather, Kinross converted the debt into a non-interest bearing demand loan to Kinam from  
4 Kinross USA, Kinross's wholly-owned subsidiary, with no fixed terms of repayment. AC, ¶ 44.  
5

6 All the common shares exchanged by Amax Gold's former shareholders for common shares  
7 of Kinross were placed in Kinross USA, thus making Kinam a closely held corporation in which  
8 Kinross controlled approximately 97% of the total voting rights and remained a creditor to the tune  
9 of \$348 million, or an amount in excess of the \$335 million of Amax Gold debt that the merger had  
10 promised to eliminate. AC, ¶ 40.  
11

12 In the years immediately following the merger, Kinross also took several non-cash charges  
13 to write down the balance sheet value of Kinam's gold mining assets. These writedowns caused  
14 Kinam's reported shareholders' equity to fall from \$274 million at year-end 1997 to a capital  
15 deficiency of \$104 million by year-end 2000. AC, ¶ 45.  
16

17 For approximately the first two years after the merger, dividends continued to be paid on the  
18 Preferred. During this period, defendants did not state publicly that the intercompany debt on  
19 Kinam's balance sheet could be used in a manner that would disadvantage the Preferred relative to  
20 Amax Gold's former common shareholders, who then held a 50% interest in Kinross.  
21

22 The payment of dividends on the Preferred was suspended with the August 15, 2000,  
23 payment as a "cash conservation measure due to the persistence of low gold prices," and with the  
24 further statement that the suspension "will be reviewed by the board on a quarterly basis." AC, ¶ 46.  
25 No mention was made of Kinam's balance sheet. In May 2001, in connection with moving Kinam's  
26 state of incorporation from Delaware to Nevada, Kinross stated that while the move would make it  
27

1 more difficult for shareholders to apply for the appointment of a receiver (AC, ¶ 48), Nevada law  
2 would allow Kinam greater discretion to pay dividends. AC, ¶ 54.

3 No further dividends have been declared since August 2000. AC, ¶ 47.

## 4 **2. The Partial Exchange Offer**

5  
6 With six dividend payments in arrears as of November 2001, the Preferred voting as a class  
7 became entitled to elect two additional directors to Kinam's board. *Id.* In a series of three  
8 transactions in mid-2001, Kinross exchanged 24.2 million of its common shares for 945,000 shares  
9 of the Preferred -- approximately 51.4% of the total outstanding -- held by three institutional  
10 investors. AC, ¶¶ 56-60. These transactions were not registered under § 13(e) of the Exchange  
11 Act, 15 U.S.C. § 78m(e), or Rule 13e-4 relating to issuer tender offers.

12  
13 In the first and largest of these transactions, Franklin Funds ("Franklin") exchanged 800,000  
14 shares of the Preferred (43.5% of the total outstanding) for 21.5 million shares of Kinross common,  
15 equating to a conversion rate of 26.875 shares of Kinross common for each share of Preferred. AC,  
16 ¶ 56. At the closing price of Kinross common on the date of the exchange, Franklin received a  
17 consideration of \$25.80 for each share of Preferred, or a premium of approximately 221% over its  
18 average closing price of \$8.025 on the NYSE in the five trading days preceding announcement of  
19 the transaction with Franklin.<sup>2</sup> *Id.*

20  
21  
22 In two similar follow-on transactions Kinross obtained an additional 145,000 shares of the  
23 Preferred. AC, ¶ 57. As a result of the Franklin Transaction and the follow-on transactions Kinross

---

24  
25 <sup>2</sup> In June 2002 Kinross common traded above \$2.50, at which time Franklin's 26.875  
26 common shares per share of Preferred would have been worth over \$67. Similarly, since its 3:1  
27 reverse share split in early 2003, Kinross common has traded generally in the \$6 to \$8 range,  
28 equivalent to a value of \$53.75 to \$71.67 for each share of Preferred exchanged by Franklin.

1 obtained control of approximately 51.4% of the total issue. AC, ¶ 58.

2 Kinross refused all other requests to convert shares of the Preferred into Kinross common  
3 at the same or similar rates as Franklin and two other institutional holders. AC, ¶ 59. The Preferred  
4 shares acquired in the Franklin and follow-on transactions were not redeemed by Kinam but instead  
5 held by Kinross USA as outstanding shares, thus giving Kinross effective control of any required  
6 separate class vote of the Preferred. AC, ¶ 60.

### 8 ***3. The Cash Tender Offer***

9 By the end of 2001, the Preferred was trading again near \$8.00 on the American Stock  
10 Exchange, to which its listing had been transferred. AC, ¶ 61. In early February 2002, Kinross  
11 announced that it was considering a cash tender offer of \$16.00 per share for the remaining 894,600  
12 publicly held shares of the Preferred. On February 20, Kinross made a formal "Offer" in that amount  
13 by mailing a tender offer document (the "Offer Document") to all holders of the Preferred in the  
14 United States and filing a Schedule TO with the Securities and Exchange Commission as required  
15 under § 13(e) of the Exchange Act. AC, ¶ 63. The Offer was scheduled to close on March 20. On  
16 March 21, Kinross extended the Offer for one week by mailing an "Amended Offer Document" to  
17 holders of the Preferred. AC, ¶¶ 67-71.

18 The terms of the Preferred expressly prohibited any distributions to common shareholders  
19 prior to payment of all accrued and unpaid dividends on the Preferred. However, the Offer  
20 Document disclosed (at p. 7) that Kinross had withdrawn cash from Kinam in an amount exceeding  
21 the cumulated dividend arrearages, claiming that these withdrawals were repayments of its  
22 "advances" or "loans." AC, ¶ 52.

23 The Offer Document also disclosed that the negotiations between Kinross and Franklin had  
24  
25  
26  
27

1 been “extended and acrimonious” and that Franklin had threatened litigation, the nature of which  
2 was not stated. AC, ¶ 66. In fact, as the documents attached to the Dell’Angelo Affidavit show  
3 (Exs. A, B, C and F, esp. pp. 13-15 of draft complaint), Franklin’s threats included derivative claims  
4 challenging the validity and enforceability of Kinam’s intercompany debt on substantially the same  
5 grounds as the plaintiffs in this action. The Offer Document revealed to the remaining holders of  
6 the Preferred for the first time that the intercompany debt in fact represented a Trojan horse which  
7 Kinross now intended to deploy against the Preferred.  
8

9  
10 First, Kinross relied on the intercompany debt to justify continued nonpayment of dividends  
11 on the Preferred for the indefinite future. Noting that Nevada law prohibited Kinam “from paying  
12 dividends on the preferred stock if its total assets are less than its total liabilities,” the Offer  
13 Document stated (AC, ¶ 52) (emphasis added):

14 This determination can, at the election of Kinam, be based on either its financial  
15 statements or a fair valuation of its assets and liabilities. ***Kinam has not undertaken  
16 and does not propose to undertake a valuation of its assets and liabilities for that  
17 purpose.*** ... Even if Kinam were permitted to pay dividends, it is under no obligation  
18 to do so and, at current gold prices, Kinam does not expect to resume the payment  
19 of dividends for the foreseeable future.

20 What is more important, the fairness opinion prepared by Raymond James and communicated  
21 to holders of the Preferred by Kinross in the Offer Document relied on the intercompany debt to  
22 assert without qualification that Kinam was actually insolvent, stating (AC, ¶ 74): “A break up of  
23 Kinam through the sale of individual properties would not yield sufficient value to cover the  
24 company’s liabilities and preferred shares liquidation value.” This statement was underscored and  
25 expanded in the Amended Offer Document (at pp. 8-9; AC, ¶ 98) (emphasis supplied):

26 Neither Raymond James nor the special committee formally analyzed the liquidation  
27 value of Kinam, since ***the net asset value analysis indicated that the preferred stock***

1 Although not completed until 2003, the three-way merger was being negotiated as early as  
2 March 21, 2002, the date of the Amended Offer Document, in which Kinross stated (at p. 3): “We  
3 do not currently intend to sell our interest in Kinam in the foreseeable future.” AC, ¶¶ 68(A), 81-83.  
4

5 Based on Kinross’s year-end 2002 financial reports, approximately 75% of its total annual  
6 gold production and a similar percentage of its total attributable proven and probable gold reserves  
7 came from assets owned by Kinam, including its Fort Knox gold mine, its 54.7% interest in the  
8 Kubaka gold mine in Russia, and its 50% interest in the Refugio gold mine in Chile. AC, ¶ 84.  
9 What Kinross proposed to do and in fact did with Kinam’s assets was not to sell them but rather to  
10 trade them for a majority stake in, and management control of, a “new” and larger Kinross formed  
11 by its merger with Echo Bay and TVX.  
12

13 As of December 31, 2001, Kinam reported total gold reserves of 4,139,000 ounces. AC, ¶  
14 76. At \$120, the low end of the range in the comparable transactions analysis contained in the  
15 fairness opinion later provided to Echo Bay’s shareholders, the value for Kinam at the time of the  
16 Offer would have been approximately \$497 million. At \$180, the high end of the range in the  
17 comparable trading statistics analysis, the value for Kinam would have been just over \$745 million.  
18 The midpoint of these two indicated values is approximately \$621 million.<sup>3</sup> AC, ¶ 96.  
19

20 Kinam’s September 30, 2001, balance sheet as described in the Offer Document showed total  
21 liabilities of just under \$440 million, including \$308.4 million of intercompany debt (“advances”  
22 plus “loan”) owed to Kinross. A sale of Kinam at a price in the middle of the indicated range would  
23

---

24 <sup>3</sup> The analysis also showed that at the conversion ratio of .52 Echo Bay shares for each share  
25 of Kinross, and based on the June 7, 2002, closing prices for Echo Bay and Kinross (\$2.57),  
26 Echo Bay standing alone had a value of \$164 per reserve ounce and the “new” Kinross, with  
27 Kinam’s gold reserves at its core, an indicated value of \$184 per reserve ounce, *i.e.*, a premium  
28 valuation in relation to the comparable companies and transactions analyses.

1 have been far more than sufficient to pay all claims on Kinam, including not just the intercompany  
2 debt but also the liquidation preference of \$50 per share on the Preferred and all accrued and unpaid  
3 dividends thereon. AC, ¶ 97.

4  
5 ***5. Closing the Offer; Delisting the Preferred***

6 In an effort to coerce holders of the Preferred to tender, the Offer Document stated that  
7 following completion of the Offer, Kinam intended to: (1) delist the Preferred from the AMEX, thus  
8 making it a highly illiquid security with no readily available market price; (2) terminate registration  
9 of the Preferred under the Exchange Act, and to cease to file annual and periodic financial reports  
10 thereunder or to provide equivalent information to any remaining unaffiliated holders; (3) pursue  
11 whatever strategies might become available to force out, by merger, recapitalization or otherwise,  
12 any remaining holders of the Preferred at \$16.00 per share or less; and (4) continue for the  
13 foreseeable future not to pay dividends on the Preferred. AC, ¶ 65.

14  
15 On April 1, 2002, Kinross announced that a total of 652,992 shares of the Preferred were  
16 tendered to the Offer, and that it would purchase all these shares, giving it ownership of 86.9% of  
17 the total original issue and leaving 241,608 shares or 13.1% publicly held. Kinross also announced  
18 that it would extend the Offer through 5:00 p.m. on April 4, 2002, to permit additional tenders.

19  
20 According to its 2003 annual report, an additional 17,730 shares were tendered during the  
21 extension. Kinross later purchased 14,700 shares from the plaintiff Glenbrook Capital LP, which  
22 reserved all its rights in this action (AC. ¶ 7), and 3,223 shares were converted into Kinross common.

23  
24 Accordingly, the Tenderors (including Glenbrook) now represent approximately 685,422 shares of  
25 Preferred and the Holders approximately 207,183 shares (11.26% of the original issue), for a total  
26 of 892,605 shares. The Preferred was delisted from the AMEX shortly after the Offer closed, leaving  
27

1 the remaining Holders with the illiquid (and unmarginable) security threatened.

2 **6. *The "New" Kinross.***

3 The merger of Kinross, Echo Bay and TVX into the "new" Kinross was effected in early  
4 2003, and shortly thereafter Kinross engaged in a three-for-one reverse stock split, making three  
5 shares in the old Kinross equal to one share in the new. AC, ¶ 105. As a result, the 26.875 shares  
6 of Kinross common received by Franklin for each share of Preferred presently equate to 8.958333  
7 Kinross shares. As of February 15, 2005, the redemption price for the Preferred was \$50 plus  
8 accrued and unpaid dividends of \$17.8125, totaling \$67.8125.  
9

10 **III. THE PROPOSED CLASS, SUBCLASSES, AND**  
11 **RESPECTIVE REPRESENTATIVE PLAINTIFFS.**

12 Like the original complaint, the Amended Complaint alleges two classes: a Tenderor Class  
13 consisting of all persons and entities who tendered their shares of the Preferred pursuant to the Offer;  
14 and a Holder Class consisting of all persons and entities who continue to hold shares of the Preferred  
15 since the Offer expired.<sup>4</sup> AC, ¶¶ 16-17. The Amended Complaint also alleges that common  
16 questions of law and fact exist as to all members of both these classes and predominate over any  
17 questions affecting only individual members of either class. AC, ¶ 20.  
18

19 Because common questions of law and fact affecting liability predominate, and because the  
20 principal differences between the classes as originally proposed relate only to damages and equitable  
21 relief, plaintiffs now propose that the Court certify this action as a class action composed of a single  
22 class with the Tenderors and Holders as subclasses.  
23

24  
25  
26 <sup>4</sup> Excluded from the both classes are the defendants, the defendants' officers and directors,  
27 affiliates, legal representatives, heirs, predecessors, successors and assigns, and any entity in  
28 which any defendant has a controlling interest or of which a defendant is a parent or subsidiary.

1 Accordingly, the proposed class consists of all non-excluded persons who: (1) held shares  
2 of the Preferred which they tendered to the Offer (the "Tenderor" subclass); (2) continue to hold  
3 shares of the Preferred (the "Holder" subclass); or (3) sold shares of the Preferred to Kinross or any  
4 of its controlled entities after the closure of the Offer and the delisting of the Preferred (the "Late  
5 Tenderor" subclass). The proposed Class and Tenderor subclass is represented by plaintiffs Drake,  
6 CN&L, and Kauffman.<sup>5</sup> The proposed Class and Holder subclass is represented by plaintiff Brown.  
7 Plaintiff Glenbrook represents the proposed Class and Late Tenderor subclass.<sup>6</sup>  
8

9 More formally, the proposed Class is defined as:  
10

11 All persons and entities who: (1) tendered shares of the \$3.75 Series B Convertible Preferred  
12 Stock of Kinam Gold Inc. ("Kinam") to Kinross Gold Corporation ("Kinross") pursuant to  
13 the February 20, 2002, cash tender offer (as amended February 22, 2002) made by Kinross; or  
14 (2) continue to hold shares of the \$3.75 Series B Convertible Preferred Stock of Kinam; or  
15 (3) did not tender shares of the \$3.75 Series B Convertible Preferred Stock of Kinam to the  
16 February 20, 2002, cash tender offer (as amended February 22, 2002) made by Kinross but  
17 have since sold such shares directly to Kinross, Kinam or Kinross Gold U.S.A. Inc. ("Kinross  
18 U.S.A."). Excluded from the Class are Kinross, Kinam and Kinross U.S.A. (collectively  
19 "Defendants"), their officers and directors (including Robert M. Buchan), affiliates, legal  
20 representatives, heirs, predecessors, successors and assigns, and any entity in which any  
21 Defendant has a controlling interest or of which any Defendant is a parent or subsidiary.

22 As defined, the proposed Class represents those persons who stand in privity of contract with  
23 Kinross or its controlled entities on substantially all of the 894,600 publicly held shares of the  
24 Preferred targeted by the Offer, either because they still hold shares of the Preferred or because they  
25 tendered or sold shares of the Preferred directly to Kinross or its controlled entities pursuant to the  
26

---

27 <sup>5</sup> At the time of the Offer, Kaufman held 15,300 shares of the Preferred. Kauffman tendered  
28 15,290 shares and held 10 shares, all of which were subsequently transferred to another owner.

<sup>6</sup> Glenbrook withdrew its tender of the Preferred. At the time of the filing of Lead Plaintiffs'  
original complaint, Glenbrook held 14,700 shares of the Preferred. Thereafter, prior to the filing  
of the Amended Complaint, Glenbrook sold all of its shares of the Preferred to Kinross, reserving  
all rights in this action.

1 Offer or subsequent to its closure. Accordingly, they are the persons with direct claims against the  
2 defendants for breaches of the terms of the Preferred relating to payment of dividends, conversion  
3 and redemption.<sup>7</sup>  
4

5 The proposed Class does not include persons who sold or traded shares of the Preferred in  
6 the market, whether before, during, or after closure of the Offer. These persons may have potential  
7 claims against the defendants arising out the events described in the Amended Complaint, but their  
8 claims are of a somewhat different nature than those of the proposed Class because sale of preferred  
9 shares in the market transfers to the purchaser all direct contract rights pertaining to ownership of  
10 the shares, including those relating to dividends, redemption and conversion.<sup>8</sup>  
11

12 Certification of the proposed Class, including the three proposed subclasses, is appropriate  
13 here because all Class members: (a) are entitled to equal treatment under the terms of the Preferred;  
14 (b) stand in the same fiduciary relationship to the defendants; (c) are entitled to the same elevated  
15 fiduciary duties from the defendants; (d) are entitled to the safeguards provided under §13(e) of the  
16 Exchange Act relating to issuer tender offers; (e) are among those for whose protection the Nevada  
17 anti-racketeering law has created a civil remedy; and (f) have each suffered or will suffer like injuries  
18

---

19  
20 <sup>7</sup> “Whatever preferential rights and privileges may thus be granted to a stockholder, the law  
21 regards them as contractual.” *Strout v. Cross, Austin & Ireland Lumber Co.*, 28 N.E.2d 890, 893  
22 (N.Y. 1940). Traditional rules of contract interpretation apply. See *Dwoskin v. Rollins, Inc.*, 634  
23 F.2d 285, 293-294 (5<sup>th</sup> Cir. 1981); *Elliott Assocs., L.P. v. Avatex Corp.*, 715 A.2d 843, 852-854  
(Del. 1998); *In re Sunstates Corp. S’holder Litig.*, 788 A.2d 530, 533 (Del. Ch. 2001).

24 <sup>8</sup> For example, since there is ordinarily no right to dividends on preferred shares until they are  
25 declared, the right to receive cumulated unpaid dividends, if and when declared and paid,  
26 transfers with any transfer in the ownership of the shares. *Jermain v. Lake S. & M. S. R. Co.*, 91  
27 N.Y. 483, 492-493 (1883); *Bates v. Androscoggin & K. R. Co.*, 49 Me. 491, 506 (1860). See also  
28 *Palmer v. Carling O’Keefe Breweries of Canada Ltd.* (1989), 56 D.L.R. (4th) 128, 67 O.R. (2d)  
161, 41 B.L.R. 128 (Div. Ct.) (dates on which preferred shares purchased not relevant to  
determining contract rights in litigation).

1 as a result of the unlawful and fraudulent conduct alleged.

2 As discussed more fully *infra*, common questions of law and fact applicable to all members  
3 of the proposed Class include whether defendants: (a) breached the terms of the Preferred; (b)  
4 breached their elevated fiduciary duties as control persons and major stockholders to other holders  
5 of the Preferred in the closely held Kinam; (c) violated § 13(e) of the Exchange Act as alleged; (d)  
6 whether defendants violated Nevada’s anti-racketeering law as alleged; and (e) violated New York  
7 Stock Exchange Rule 311.03, as alleged.  
8

9 Regarding damages or other equitable relief, all members of the proposed Class are entitled  
10 to the benefits of the best price rule and all holders requirement imposed by § 13(e) and Rule 13e-4.  
11 However, the precise relief accorded the different subclasses must account for the cash payments  
12 already received by the Tenderor and Late Tenderor subclasses and the practical reality that equitable  
13 relief relating to conversion or redemption can more easily be structured and applied with respect  
14 to the Holder subclass than the other subclasses.  
15

16  
17 **IV. ARGUMENT**

18 **A. This Action Is Appropriate for Class Certification**

19 Courts in this Circuit have long recognized the usefulness and efficacy of class actions in  
20 circumstances similar to those presented in this litigation, and have long recognized and adopted a  
21 liberal construction of Rule 23 when considering shareholder suits seeking class action certification.  
22 *See, e.g., In re DJ Orthopedics, Inc.*, 2003 U.S. Dist. LEXIS 21534, \*6, \*27 (S.D.Cal. Nov. 16,  
23 2003) (“the trial court has broad discretion in determining whether a class should be certified”); *In*  
24 *re United Energy Corp. Sec. Litig.*, 122 F.R.D. 251, 253 (C.D.Cal. 1988) (“In a securities case, the  
25 requirements of Rule 23 should be liberally construed in favor of class actions.”) (*citing Blackie v.*  
26  
27

1 *Barrack*, 524 F.2d 891, 903 (9th Cir. 1975)). Courts have explicitly recognized that any doubt as  
2 to the propriety of certification should be resolved in favor of certifying the Class because denying  
3 class certification will almost certainly terminate the action and be detrimental to the members of  
4 the proposed Class. *Blackie*, 524 F.2d at 901. In deciding a motion for class certification, courts  
5 focus on the limited question of whether the prerequisites of Rules 23(a) and (b) are satisfied. As  
6 the Supreme Court emphasized in the seminal case of *Eisen v. Carlisle & Jacquelin*, 417 U.S. 156,  
7 177-78 (1974), an inquiry pursuant to Rule 23 should not extend to the merits of the case. *Id.* at 177  
8 (“We find nothing in either the language or history of Rule 23 that gives a court any authority to  
9 conduct a preliminary inquiry into the merits of a suit in order to determine whether it may be  
10 maintained as a class action.”); *see also Welling v. Alexy*, 155 F.R.D. 654, 656 (N.D.Cal. 1994) (“In  
11 conducting such an analysis, district courts must be careful to avoid reviewing the merits of the  
12 underlying action and focus instead on the requirements of Rule 23.”). Accordingly, “[i]n  
13 determining the propriety of a class action, the question is not whether the plaintiff or plaintiffs have  
14 stated a cause of action or will prevail on the merits, but rather whether the requirements of Rule 23  
15 are met. The determination whether there is a proper class does not depend on the existence of a  
16 cause of action. A suit may be a proper class action, conforming to Rule 23, and still be dismissed  
17 for failure to state a cause of action.” *Miller v. Mackey Int’l, Inc.*, 452 F.2d 424, 427 (5th Cir. 1971)  
18 (citations omitted).<sup>9</sup> Because class certification is determined at the pleading stage, the allegations  
19 in the Amended Complaint are accepted as true for the purposes of the class motion. *Blackie*, 524  
20  
21  
22  
23  
24

---

25 <sup>9</sup> Notwithstanding the pending cross dispositive motions, it is not inappropriate for the court  
26 to rule on plaintiffs’ motion for class certification prior to the disposition of those motions. *See*  
27 *In re Diamond Multimedia Sys., Inc. Sec. Litig.*, 1997 WL 773733, \*2 (N.D.Cal. 1997) (*citing*  
*Medhekar v. United States Dist. Ct.*, 99 F.3d 325, 328 (9th Cir. 1996)).

1 F.2d at 901 n.17; *In re Coordinated Pretrial Proceedings in Petroleum Prods. Antitrust Litig.*, 691  
2 F.2d 1335, 1342 (9th Cir. 1982); *In re Heritage Bond Litig.*, 2004 WL 1638201, \*2 (C.D.Cal. July  
3 12, 2004). As discussed in detail *infra*, this case clearly satisfies the requirements of Rule 23 and,  
4 therefore, the proposed Class should be granted. Indeed, “all that is required [at the class  
5 certification stage] is enough for the court to form a ‘reasonable judgment’ on each requirement.”  
6 *See Blackie*, 524 at 901. Where the party seeking class certification has met its burden, the district  
7 court has broad discretion to certify a class. *Zinser v. Accufix Research Inst., Inc.*, 253 F.3d 1180,  
8 1186 (9th Cir. 2001), as amended, 273 F.3d 1266 (9th Cir. 2001); *Doninger v. Pacific Northwest*  
9 *Bell, Inc.*, 564 F.2d 1304, 1309 (9th Cir. 1977).

12 **B. The Requirements Of Rule 23(a) Are Met**

13 Rule 23(a) establishes four requirements for the maintenance of a class action:

- 14 (1) the class is so numerous that joinder of all members is impracticable;  
15 (2) there are questions of law or fact common to the class;  
16 (3) the claims or defenses of the representative parties are typical of the  
17 claims or defenses of the class; and  
18 (4) the representative parties will fairly and adequately protect the  
19 interests of the class.

20 Fed. R. Civ. P. 23. *See, e.g., Amchem Prods. v. Windsor*, 521 U.S. 591, 613 (1997); *Green v.*  
21 *Occidental Petroleum Corp.*, 541 F.2d 1335, 1339 (9th Cir. 1976). Each of these four requirements  
22 -- numerosity, commonality, typicality and adequacy -- are plainly satisfied here.

23 **1. The Proposed Class Is So Numerous That Joinder Of All Members Is Impractical**

24 Class certification requires that the proposed Class is so numerous that joinder of all  
25 members is “impracticable.” Fed. R. Civ. P. 23(a)(1). Impractical does not mean impossible, but  
26 rather refers to the difficulty or inconvenience of joining all members of the class. *Wehner v. Syntex*  
27

1 Corp., 117 F.R.D. 641, 643 (N.D.Cal. 1987) (“While not impossible, joinder would clearly be  
2 impracticable.”). There is no fixed number of class members which either compels or precludes the  
3 certification of a class. However, as a general rule, classes numbering greater than 41 individuals  
4 satisfy the numerosity requirement. See *Santillan v. Ashcroft*, 2004 WL 2297990, \*9 (N.D.Cal. Oct.  
5 12, 2004) (citing 5 James Wm. Moore *et al.*, *Moore's Federal Practice* § 23.22[1] [b] (3d ed.  
6 2004)).<sup>10</sup> Additionally, the exact size of the class need not be known so long as general knowledge  
7 and common sense indicate that the class is large. See *Schwartz v. Harp*, 108 F.R.D. 279, 281-82  
8 (C.D.Cal. 1985) (“failure to state the exact number in the proposed class does not defeat class  
9 certification”); *Sherman v. Griepentrog*, 775 F. Supp. 1383, 1389 (D.Nev. 1991) (citing *Lund v.*  
10 *Affleck*, 388 F. Supp. 137, 139-40 (D.R.I. 1975)) (that the moving party is not sure of the exact  
11 number of members proposed class does not bar class certification); *In re Computer Memories Sec.*  
12 *Litig.*, 111 F.R.D. 675, 679 (N.D.Cal. 1986) (plaintiffs need not establish exact number of class  
13 members, but merely demonstrate that it is sufficiently numerous). Thus, a court may draw a  
14 reasonable inference of the size of the class from the facts before it. See *Sherman*, 775 F. Supp. at  
15 1389 (citing *Gay v. Waiters' & Dairy Lunchmen's Union*, 549 F.2d 1330, 1332 (9th Cir. 1977));  
16 *Schwartz*, 108 F.R.D. at 281-282 (C.D. Cal. 1985) (numerosity met where plaintiffs alleged  
17 1,000,000 shares of publicly traded security affected but failed to state exact size of proposed class;  
18 court could make “common sense assumptions”). Courts in this Circuit have assumed that the

---

19  
20  
21  
22  
23  
24  
25  
26  
27  
28  
<sup>10</sup> Professor Newberg’s survey of court rulings on the numerosity issue concluded that any class consisting of 40 or more members presumptively fulfills the numerosity requirement. *H. Newberg, Class Actions* §3.05 at 3-25 (1992). Cf. *Tietz v. Bowen*, 695 F. Supp. 441, 445-446 (N.D.Cal. 1987) (class of 27 certified); *Jordan v. County of Los Angeles*, 669 F.2d 1311, 1319-1320 (9th Cir.), vacated on other grounds, 459 U.S. 810 (1982) (classes of 39, 64 and 71 certified); *Perez-Funez v. District Director, INS.*, 611 F. Supp. 990, 995 (C.D.Cal. 1984) (acknowledging class of twenty-five members).

1 numerosity requirement is satisfied in securities cases involving nationally-traded stocks. *Yamner*  
2 *v. Boich*, Fed. Sec. L. Rep. (CCH) P98427 (N.D.Cal. Sept. 15, 1994).

3 Adequate numerosity clearly exists in this case. The Amended Complaint alleges that  
4 894,600 shares of the Preferred were outstanding and publicly traded that the time of Kinross's  
5 tender offer, the alleged breach of the Preferred. *See e.g.*, AC, ¶¶ 1, 10, 18. As plaintiffs alleged,  
6 it is believed that there are hundreds of members of Class which represent the entirety of the 894,600  
7 publicly traded shares of the Preferred. AC, ¶ 18.

8  
9 Classes of the size extant here are sufficiently numerous so as to make individual joinder  
10 extremely impracticable, if not logistically impossible, especially where the members of the Class  
11 are located throughout the country. *See In re Seagate Techs. Sec. Litig.*, 115 F.R.D. 264, 267 (N.D.  
12 Cal. 1987). Thus, classes of the size presented here are routinely certified by the courts. *See, e.g.*,  
13 *In re Genentech, Inc. Sec. Litig.*, Fed. Sec. L. Rep. (CCH) P95347 (N.D.Cal. June 8, 1990) (proposed  
14 class likely to include "hundreds" of members based on share trading volume); *In re Diatonic Sec.*  
15 *Litig.*, 599 F. Supp. 447, 451 (N.D.Cal. 1984) (potential class consisting of "hundreds of class  
16 members" satisfied numerosity). Therefore, certification of the Class sought here, which is believed  
17 to have hundreds, if not thousands, of members is consistent with the practice in this Circuit.

18  
19  
20 **2. Questions Of Law And Fact Common To The Plaintiffs And The Class**

21 Rule 23(a)(2) requires that there exist "questions of law or fact common to the Class." Fed.  
22 R. Civ. P. 23(a)(2). The commonality requirement of Rule 23(a)(2) is satisfied when common  
23 questions of law or fact are present. *See O'Connor v. Boeing North Am., Inc.*, 184 F.R.D. 311, 330  
24 (C.D.Cal. 1998). Such questions are "substantial questions either of law or fact common to all."  
25 *Harris v. Palm Springs Alpine Estates, Inc.*, 329 F.2d 909, 914 (9th Cir. 1964). However, individual  
26  
27

1 variation among plaintiffs' questions of law and fact does not defeat the underlying legal  
2 commonality because "[t]he existence of shared legal issues with divergent factual predicates is  
3 sufficient" to satisfy Rule 23. *Hanlon v. Chrysler Corp.*, 150 F.3d 1011, 1019 (9th Cir.1998);  
4 *Santillan v. Ashcroft*, 2004 WL 2297990, \*10 (N.D.Cal. Oct. 12, 2004). Commonality may be found  
5 even where divergent facts exist because "plaintiffs may demonstrate commonality by showing that  
6 class members have shared legal issues but divergent facts or that they share a common core of facts  
7 but base their claims for relief on different legal theories." *Dukes v. Wal-Mart.*, 222 F.R.D. 137, 145  
8 (N.D.Cal. 2004). Thus, where, as here, the proposed Class has been damaged by a common course  
9 of conduct, courts regularly find the commonality requirement is satisfied. *See, e.g., Blackie*, 524  
10 F.2d at 902-905; *In re Emulex Corp. Sec. Litig.*, 210 F.R.D. 717, 721 (C.D.Cal. 2002); *Gould v.*  
11 *Marlon*, Fed. Sec. L. Rep. (CCH) P93408, P97125-97 (D.Nev. Aug. 29, 1987).

14 The Amended Complaint details a common course of unlawful conduct. Common questions  
15 of law and fact exist as to all members of the proposed Class and predominate over any questions  
16 affecting solely individual members of the Class or the proposed subclasses. Nevertheless, "[t]he  
17 fact that there is some factual variation among the class grievances will not defeat at class action .  
18 ... A common nucleus of operative facts is usually enough to satisfy the commonality requirement  
19 of Rule 23(a)(2)." *In re Heritage Bond Litig.*, 2004 WL 1638201, \*3 (C.D.Cal. July 12, 2004)  
20 (quoting *Rosario v. Livaditis*, 963 F.2d 1013, 1017 (7th Cir. 1992)).  
21

22 Among the questions of law and fact common to the members of the Class are:  
23

- 24 (a) whether defendants have breached the terms of the Preferred;
- 25 (b) whether defendants have breached their elevated fiduciary duties as control persons and  
26 major stockholders to other holders of the Preferred;
- 27 (c) whether defendants violated § 13(e) and Rule 13e-4 of the Exchange Act as alleged;
- 28 (d) whether defendants violated Nevada's anti-racketeering law as alleged; and

1 (e) whether defendants violated New York Stock Exchange Rule 311.03 as alleged.

2 These issues are common to all members of the Class and predominate over any questions affecting  
3 solely individual members of the Class or proposed subclasses. Although the precise relief  
4 appropriate for each of the proposed subclasses may differ, all members of the Class claim damages  
5 or equivalent equitable relief under the best price rule and all holders requirement contained in Rule  
6 13e-4 of § 13(e) of the Exchange Act.  
7

8 “The Rule 23(b)(3) predominance inquiry tests whether proposed classes are sufficiently  
9 cohesive to warrant adjudication by representation.” *Amchem Prod., Inc. v. Windsor*, 521 U.S. 591,  
10 623 (1997). In the leading decision of *Blackie v. Barrack*, the Ninth Circuit Court of Appeals  
11 affirmed the certification of a class of securities purchasers based upon a common course of conduct.  
12 The court reasoned that “the class is united by a common interest in determining whether a  
13 defendant’s course of conduct is in its broad outlines actionable, which is not defeated by slight  
14 differences in class members’ positions, and that the issue may profitably be tried in one suit.” 524  
15 F.2d at 902 (citations omitted); *Gould*, ¶ 93,408 at 97,126 (focusing on defendants’ course of  
16 conduct over time).  
17  
18

19 Class certification is appropriate here because the claims against defendants “arise out of the  
20 same set of operative facts and are based on common legal theories.” *Schneider v. Traweek*, Fed.  
21 Sec. L. Rep. (CCH) P95419 (C.D.Cal. July 31, 1990); *In re United Energy Corp. Solar Power*  
22 *Modules Tax Shelter Inv. Sec. Litig.*, 122 F.R.D. 251, 254 (C.D.Cal. 1988); *Schwartz*, 108 F.R.D.  
23 at 282; *In re Unioil Oil Sec. Litig.*, 107 F.R.D. 615, 618-19 (C.D.Cal. 1985). Therefore, the  
24 commonality requirement has been met.  
25  
26  
27  
28

1 the representative parties and the other members of the class.” *Id.* (citation omitted). Indeed,  
2 factual variations are not fatal to a proposed class when the claims arise out of the same remedial and  
3 legal theory. *Wofford v. Safeway Stores*, 78 F.R.D. 460, 488 (N.D. Cal. 1978); *Mendoza v. Zirkle*  
4 *Fruit Co.*, 222 F.R.D. 439, 448 (E.D.Wash. 2004). Accordingly, “the typicality requirement is not  
5 demanding.” *In re Heritage Bond Litig.*, 2004 WL 1638201, \*4 (C.D. Cal. July 12, 2004) (citing  
6 *In re Enron Corp. Sec., Derivative and ERISA Litig.*, 2004 WL 405886, \*25 (S.D.Tx. Feb. 25, 2004).  
7 Thus, even if it is determined that the representatives of the Class, including each proposed subclass,  
8 may not have been injured in the identical manner as other Class members, that does not prevent the  
9 proposed Class Representatives from acting as such provided the general theory of recovery is  
10 typical of the Class and subclass they represent. *See e.g., California Rural Legal Assistance, Inc.*  
11 *v. Legal Services Corp.*, 917 F.2d 1171, 1175 (9th Cir. 1990) (Rule 23 “does not require the named  
12 plaintiffs to be identically situated with all other class members. It is enough to share a ‘common  
13 issue of law or fact.’”); *Hansen v. Ticket Track, Inc.*, 213 F.R.D. 412, 415 (W.D.Wash. 2003)  
14 (typicality satisfied where “[t]he claim of at least one of the representatives seems to be typical of  
15 the claims of putative class members as described in the class definition”).  
16  
17  
18

19       Typicality does not require that the interests between the Representative Plaintiffs and the  
20 members of the Class be identical. *See In re Unioil Oil Sec. Litig.*, 107 F.R.D. 615, 620 (C.D.Cal.  
21 1985) (“A plaintiff’s claim meets the typicality requirement if it arises from the same event or  
22 course of conduct that gives rise to claims of other class members and the claims are based on the  
23 same legal theory.”) (citation omitted). Indeed, the purpose of the “typicality” requirement is to  
24 assure that the named Representative Plaintiffs’ interests align with, not duplicate, those of the Class.  
25  
26 *See Weinberger v. Thornton*, 114 F.R.D. 599, 603 (S.D.Cal. 1986). Thus, “[t]he test generally is  
27  
28

1 ‘whether other members have the same or similar injury, whether the action is based on conduct that  
2 is not unique to the named plaintiffs, and whether other class members have been injured by the  
3 **same course of conduct.’”** *A & J Deutscher Family Fund v. Bullard*, Fed. Sec. L. Rep. (CCH)  
4 P92938, at P94584 (C.D.Cal. Sept. 22, 1986) (emphasis added); *see also Dura-Bilt*, 89 F.R.D. at 99  
5 (“The proper inquiry is whether other members of the class have the same or similar injury, whether  
6 the action is based on conduct not special or unique to the named plaintiffs, and whether other class  
7 members have been injured by the same course of conduct.”).

9  
10 In *Weinberger v. Jackson*, 102 F.R.D. 839, 844 (N.D.Cal. 1984), the court stated that  
11 “[t]ypicality refers to the nature of the claim or defense of the class representative, and not to the  
12 specific facts from which it arose or the relief sought.” (citations omitted). This applies to a  
13 Representative Plaintiff’s decision to hold, tender to Kinross, or hold and subsequently sell to  
14 Kinross the Preferred, thereby placing the member in the Holder, Tenderor, or Late Tenderor  
15 subclass. Indeed, a “named plaintiff need not have suffered an identical wrong. It is sufficient if his  
16 allegations are derived from the same remedial and legal theories.” *Murray v. Local 2620, Dist.*  
17 *Council 57, Am. Fed. of State, County & Mun. Emples.*, 192 F.R.D. 629, 635 (N.D.Cal. 2000); *see*  
18 *generally, Eisenberg v. Gagnon*, 766 F.2d 770, 786 (3d Cir. 1985) (“[T]ypicality entails an inquiry  
19 whether the named plaintiff’s individual circumstances are markedly different or . . . the legal theory  
20 upon which the claims are based differs from that upon which the claims of other class members will  
21 perform be based.”).

22  
23  
24 Here, the Representatives Plaintiffs equally satisfy the typicality requirement because, like  
25 all other Class members, they (1) own shares of the Preferred or formerly owned shares which they  
26 tendered to the Offer or sold to Kinross after the Offer closed; and (2) each suffered damages as a  
27

1 result of, *inter alia*, defendants' breach of the terms of the Preferred. The claims of each  
2 Representative Plaintiff are typical of those of other Class members because each of their claims  
3 arise directly out of defendants' common course of conduct. Because the proposed Representative  
4 Plaintiffs seek to prove that all Class members' claims arise from the same event or course of  
5 conduct that gave rise to the claims of the members of the Class, and those claims are based on the  
6 same legal theory, the Rule 23(a)(3) typicality requirement is satisfied.  
7

8 **4. The Named Plaintiffs Will Fairly And**  
9 **Adequately Protect The Interests Of The Class**

10 Rule 23(a)(4) requires that plaintiffs will "fairly and adequately protect the interests of the  
11 class." *See, e.g., O'Connor*, 184 F.R.D. at 335; *see also Lerwill v. Inflight Motion Pictures, Inc.*, 582  
12 F.2d 507, 512 (9th Cir.1978). The standards of Rule 23(a)(4) are met if it appears that the interests  
13 of each Representative Plaintiff are not antagonistic to those of other members of the Class they seek  
14 to represent and the attorneys they have selected to prosecute this action are qualified, experienced  
15 and generally able to conduct the litigation. *See id.*; *In re Northern Dist. of Cal., Dalkon Shield IUD*  
16 *Prods. Liab. Litig.*, 693 F.2d 847, 855 (9th Cir. 1982) (representative is adequate if (1) counsel for  
17 the class is qualified and competent; (2) the representatives' interests are not antagonistic to interests  
18 of absent class members; and (3) the action is not collusive); *In re Computer Memories Sec. Litig.*,  
19 111 F.R.D. at 681; *In re Victor Technologies Sec. Litig.*, 102 F.R.D. 53, 57 (N.D.Cal. 1984).  
20  
21

22 Each prong of the "adequacy" test is met here.<sup>11</sup> First, the proposed Class Representatives  
23 have selected law firms to represent them that are highly experienced in prosecuting class actions  
24

---

25 <sup>11</sup> The only possible distinction between the Representative Plaintiffs and the proposed Class  
26 members relates to the amount of damages each member may receive. However, as discussed,  
27 "[d]ifferences in damage awards are inherent to almost any class action and, consequently cannot  
28 overcome a class certification motion." *Schlagal*, 1999 U.S. Dist. LEXIS 2157, at \*12.

1 such as this and also possess significant knowledge of the gold mining industry. See Exhibits “A”  
2 and “B” to the Davidoff Decl. to Movants’ Motion for Appointment as Lead Plaintiffs (Docket No.  
3 18). Second, the interests of the proposed Representative Plaintiffs are clearly aligned with the  
4 members of the Class and subclass they seek to represent, and there is no evidence of any antagonism  
5 between the interests of these individuals and the Class or subclass. As demonstrated *supra*, the  
6 proposed Representative Plaintiffs share numerous common questions of law and fact with the  
7 members of the Class and their claims are typical of the claims of the other members of the Class.  
8 There is no conceivable reason why the action would be collusive and no such inference exists.  
9 Thus, the Representative Plaintiffs satisfy the requirements of Rule 23(a)(4).  
10  
11

12 **C. The Conditions Of Rule 23(b)(3) Are Satisfied.**

13 In addition to meeting the prerequisites of Rule 23(a), the proposed Class also satisfies Rule  
14 23(b), which requires that the proposed class action meet any one of three conditions stated by the  
15 rule.<sup>12</sup> In this case, common questions of law and fact predominate and a class action is the superior  
16 (if not the only) method available to fairly and efficiently litigate this action.  
17

18 In conducting such an evaluation, this Court should consider, *inter alia*, the interests of  
19 members of the Class in prosecuting separate actions and the difficulties likely to be encountered in  
20 the management of this class action. *Werner v. Satterlee, Stephens, Burke & Burke*, 797 F. Supp.  
21 1196, 1216 (S.D.N.Y. 1992). This case meets all the criteria set forth in Rule 23(b)(3).  
22  
23

---

24  
25 <sup>12</sup> “An action may be maintained as a class action if the prerequisites of subdivision (a) are  
26 satisfied, and in addition: . . . (3) the court finds that the questions of law or fact common to the  
27 members of the class predominate over any questions affecting only individual members, and  
28 that a class action is superior to other available methods for the fair and efficient adjudication of  
the controversy.” Fed. R. Civ. P. 23(b).

1                   **1.       Common Questions Of Law And Fact Predominate.**

2                   “The Rule 23(b)(3) predominance inquiry tests whether proposed classes are sufficiently  
3 cohesive to warrant adjudication by representation.” *Amchem Prods. v. Windsor*, 521 U.S. 591, 623  
4 (1997).<sup>13</sup> In determining whether common questions predominate, “courts focus on the liability  
5 issue, . . . . and if the liability issue is common to the class, common questions are held to  
6 predominate over individual questions.” *Genden v. Merrill Lynch, Pierce, Fenner, & Smith, Inc.*,  
7 114 F.R.D. 48, 52 (S.D.N.Y. 1987) (quoting *Dura-Bilt Corp.*, 89 F.R.D. at 93). See also, *In re*  
8 *United Energy Corp.*, 122 F.R.D. at 254. “The mere presence of potential individual issues does not  
9 defeat the predominance of common questions.” *Westways World Travel, Inc. v. AMR Corp.*, 218  
10 F.R.D. 223, 239 (C.D.Cal. 2003) (quoting *McFarland v. Memorex*, 96 F.R.D. 357, 363-64  
11 (N.D.Cal.1982)). Thus, when common questions present a significant aspect of the case and they  
12 can be resolved for all members of a Class in a single adjudication, there is clear justification for  
13 handling the dispute on a representative rather than on an individual basis.<sup>14</sup> *Local Joint Exec. Bd.*  
14 *of Culinary/Bartender Trust Fund v. Las Vegas Sands, Inc.*, 244 F.3d 1152, 1162 (9th Cir. 2001)  
15 (citing *Hanlon v. Chrysler Corp.*, 150 F.3d 1011, 1022 (9th Cir. 1998)). The critical issues of fact  
16  
17  
18

19 \_\_\_\_\_  
20                   <sup>13</sup> Rule 23 requires, in addition to the requirements of subparagraph (a), plaintiffs must meet  
21 the requirements of one subsection of subparagraph (b). Here, plaintiffs move pursuant to and  
22 meet the requirements of subsection 23(b)(3).

23                   <sup>14</sup> Differences in various Class members’ claims regarding damages will not defeat class  
24 certification. *Gould v. Marlon*, P93408 at 97126 (“individual questions with respect to damages  
25 do not defeat class certification”); *In re Unioil Oil Sec. Litig.*, 107 F.R.D. 615, 622 (C.D.Cal.  
26 1985) (“any differences between named plaintiffs and class members [at class certification stage]  
27 do not preclude class certification”; observing conflicts can be resolved with subclasses or  
28 bifurcation); *Newton-Nations v. Rogers*, 221 F.R.D. 509, 511 (D.Ariz. 2004) (speculative  
conflicts are not actual conflicts sufficient to defeat class certification) (citing *Cummings v.*  
*Connell*, 316 F.3d 886, 896 (9th Cir. 2003) cert. denied 539 U.S. 927 (2003) (grant of class  
certification was not abuse of discretion “without some evidence of an actual conflict”).

1 and law raised in this action are common to *all* members of the Class and will predominate in this  
2 case. Once these common questions are resolved, all that should remain is determining the  
3 appropriate relief for the members of each subclass. *See Blackie*, 524 F.2d at 905.

4  
5 Nevertheless, the fact that members of the Class may not be identically situated is not critical.  
6 Common issues predominate because, as here, a **common course of conduct has been alleged**. *See*,  
7 *e.g.*, *Harris*, 329 F.2d at 914-15. *See also Blackie*, 524 F.2d at 902 (endorsing the approach  
8 previously taken by the Court of Appeals in *Harris*). In sum, because the Amended Complaint  
9 alleges a common course of conduct committed by defendants and directed equally against all  
10 members of Class, whether Tenderors or Holders, the issues of law and fact which flow from that  
11 wrongful activity clearly predominate over any individual issues. In such circumstances, a class  
12 action is not only appropriate, it is mandated by Rule 23. *See, e.g.*, *Blackie*, 524 F.2d at 905-08.  
13 Therefore, the predominance of common issues is clear.  
14

15  
16 **2. A Class Action Is Superior To Other Methods Of Adjudication.**

17 Rule 23(b)(3) instructs courts to consider:

18 (A) [T]he interest of members of the class in individually controlling the prosecution  
19 . . . of separate actions; (B) the extent and nature of any litigation concerning the  
20 controversy already commenced by . . . members of the class; (C) the desirability .  
21 . . of concentrating the litigation of the claims in the particular forum; (D) the  
22 difficulties likely to be encountered in the management of a class action.

23 Fed. R. Civ. P. 23(b)(3). Here, class certification is both useful and necessary. The class action  
24 device offers judicial efficiencies because it permits common claims and issues to be tried only once,  
25 with binding effect on all parties. Class certification also facilitates settlement by permitting  
26 agreements that potentially bind all claimants. Finally, class representation is the only way to afford  
27 relief to those whose claims are too small to permit them to bring individual suits.  
28

1           Indeed, even a derivative action, such as that threatened by Franklin over the validity and  
2 enforceability of Kinam's intercompany debt on substantially the same grounds as the plaintiffs  
3 allege here, could not now bring relief to all members of the Class. Having tendered or sold their  
4 shares to Kinross, members of the Tenderor and Late Tenderor subclasses no longer have standing  
5 to bring a derivative action on behalf of Kinam or to benefit from any relief that might be accorded  
6 the company in any such action.  
7

8           In this litigation, "the interest of members of the class in individually controlling the  
9 prosecution . . . of separate actions" will be minimal. The costs and expenses of such individual  
10 actions, when weighed against the individual recoveries potentially obtainable, would be prohibitive.  
11 The class action device is the only viable vehicle by which persons injured by defendants' wrongful  
12 conduct may obtain a remedy. Any notion that such claims could be litigated individually is wholly  
13 unrealistic and is contrary to the philosophy of Rule 23. *See Unioil*, 107 F.R.D. at 622. Although  
14 some members of the Class may have sustained substantial individual damages, even individual  
15 litigation of such claims would be uneconomical, given the complexity of the factual and legal issues  
16 involved. Although this case may require different forms of relief or separate damage assessments  
17 for the members of each subclass, even individualized damage assessments are not a basis for  
18 denying certification of a class. *See Thomas & Thomas Rodmakers, Inc. v. Newport Adhesives &*  
19 *Composites, Inc.*, 209 F.R.D. 159, 168 n.10 (C.D.Cal. 2002) (citing *In re Visa Check/MasterMoney*  
20 *Antitrust Litig.*, 280 F.3d 124, 140-41 (2d Cir. 2001)); *Lienhart v. Dryvit Sys., Inc.*, 255 F.3d 138,  
21 147 (4th Cir. 2001); *Winkler v. DTE, Inc.*, 205 F.R.D. 235, 245 (D.Ariz. 2001). Indeed, "there is no  
22 rule, however, that every member of the class must recover identically." *Morelock Enterprises, Inc.*  
23 *v. Weyerhaeuser Co.*, 2004 WL 2997526, \*3 (D.Or. 2004). Moreover, the overwhelming majority  
24  
25  
26  
27  
28

1 of the members of the proposed Class have not brought suit. Thus, with respect to Rule 23(b)(3)(A)  
2 and (B), the class action device is a superior method of adjudicating this controversy.

3  
4 Defendants themselves, through their alleged actions, manifest the desirability of locating  
5 all actions in this forum. With respect to paragraph (C) of Rule 23, the Amended Complaint alleges  
6 that, without a vote of Preferred shareholders, Kinross moved Kinam's state of incorporation from  
7 Delaware to Nevada. AC, ¶ 48. The Amended Complaint goes on to allege that doing so permitted  
8 defendants to avail themselves of Nevada law which requires a stakeholder to own at least 10% of  
9 the outstanding voting stock to seek appointment of a receiver. *Id.* Therefore, the Amended  
10 Complaint alleges, because Kinross had reduced the Kinam voting rights of the Preferred holders  
11 to only 3%, Preferred holders were disabled from seeking to appoint a receiver to capitalize on their  
12 preference to the assets of Kinam in any liquidation. AC, ¶ 50. By the summer of 2001, therefore,  
13 Kinross had purported to quash virtually all of the rights and preferences to which Preferred holders  
14 were entitled. Accordingly, not only did several of the key transactions take place in Nevada,  
15 defendants attempted to employ Nevada law to effect the common course of illegal conduct at issue.

16  
17  
18 Finally, regarding paragraph (D), there is no reason to believe that Class counsel will  
19 encounter significant or unusual difficulties in the management of this litigation. *See, e.g., Disonics*  
20 *Sec. Litig.*, 599 F. Supp. 447 (N.D.Cal. 1984). Discussing the issue of potential class action  
21 management difficulties, the court in *In re Antibiotic Antitrust Actions*, 333 F. Supp. 278 (S.D.N.Y.  
22 1971) observed such matters are only significant if they would render the class action a "less a "fair  
23 and efficient" method of adjudication"; particularly where defendants can offer no better remedy.  
24 *Id.* at 282 (original emphasis); *see also In re Sugar Indus. Antitrust Litig.*, 1977-1 Trade Cas. (CCH)  
25 P61373 at P71340 (N.D.Cal. 1976) (possible management problems alone not grounds for denying  
26  
27  
28

1 class certification); *accord Yaffe v. Powers*, 454 F.2d 1362, 1365 (1st Cir. 1972). Clearly, here, the  
2 class device is superior to other available methods of adjudication.

3  
4 **V. CONCLUSION**

5 For the foregoing reasons, plaintiffs respectfully request that the Court enter an order  
6 certifying this action as a class action pursuant to Rules 23(a) and 23(b)(3) of the Federal Rules of  
7 Civil Procedure and certify the Class as defined.

20 Brown v. Kinross Gold U.S.A., Inc.	CV-S-02-0605-PMP-(RJJ)
21 22 This Document Relates To: All actions	

23 **ORDER**

24  
25  
26 Having considered the Renewed Motion of Robert A. Brown, Glenbrook Capital LP,  
27 Andrew D. Kaufman, George P. Drake, and CN&L Investment Corp., for Class Certification it is  
28

1 hereby **ORDERED AND ADJUDGED** that Plaintiffs have sustained their burden of satisfying  
2 the elements required for class certification.

3  
4 1. Lead Plaintiffs Robert A. Brown, Glenbrook Capital LP, Andrew D. Kaufman,  
5 George P. Drake, and CN&L Investment Corp. have met the requirements of Fed. R. Civ. P.  
6 23(a) as follows:

- 7 a. Members of the Class and Subclasses, defined below, are so numerous that  
8 joinder is impracticable.
- 9 b. The claims of the Class and the respective Subclasses are common.
- 10 c. The claims of the Lead Plaintiffs are typical as follows:
- 11 (1) The claims of Robert A. Brown are typical of those of the “Holder  
12 Subclass” defined below; and
- 13 (2) The claims of Andrew D. Kaufman, George P. Drake, and CN&L  
14 Investment Corp., are typical of those of the “Tenderor Subclass”  
15 defined below; and
- 16 (3) The claims of Plaintiff Glenbrook are typical of those of the Class  
17 and the “Late Tenderor Subclass” defined below.

18 2. Lead Plaintiffs are adequate representatives of the Class and of their respective  
19 Subclasses.

20 3. Further, Lead Plaintiffs have satisfied the requirements of Fed. R. Civ. P. 23(b)(3)  
21 as follows:

- 22 a. Common claims predominate over individual claims such that significant  
23 aspects of this case can be resolved in a single action; and
- 24 b. The class action device is a superior means to adjudicate the claims of the  
25 members of the Class and the respective Subclasses.
- 26  
27  
28
